## BIBLIOGRAPHIC CITATION

Publications based on ICPSR data collections should acknowledge those sources by means of bibliographic citations. To ensure that such source attributions are captured for social science bibliographic utilities, citations must appear in footnotes or in the reference section of publications. The bibliographic citation for this data collection is:

U.S. Dept. of Justice, Federal Bureau of Investigation. UNIFORM CRIME REPORTING PROGRAM DATA [UNITED STATES]: COUNTY-LEVEL DETAILED ARREST AND OFFENSE DATA, 1989 [Computer file]. ICPSR version. Washington, DC: U.S. Dept. of Justice, Federal Bureau of Investigation [producer], 1989. Ann Arbor, MI: Interuniversity Consortium for Political and Social Research [distributor], 1997.

# REQUEST FOR INFORMATION ON USE OF ICPSR RESOURCES

To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, users of ICPSR data are requested to send to ICPSR bibliographic citations for each completed manuscript or thesis abstract. Please indicate in a cover letter which data were used.

## DATA DISCLAIMER

The original collector of the data, ICPSR, and the relevant funding agency bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.

### DATA COLLECTION DESCRIPTION

United States Department of Justice. Federal Bureau of Investigation
UNIFORM CRIME REPORTING PROGRAM DATA [UNITED STATES]: COUNTYLEVEL DETAILED ARREST AND OFFENSE DATA, 1989 (ICPSR 9573)

SUMMARY: The files in this collection contain counts of arrests and offenses for Part 1 and Part 2 offenses: murder, rape, robbery, assault, burglary, larceny, auto theft, arson, forgery, fraud, embezzlement, vandalism, weapons violations, sex offenses, drug and alcohol abuse violations, gambling, vagrancy, curfew violations, and runaways. County populations are also reported.

UNIVERSE: County law enforcement agencies in the United States.

NOTE: (1) Data have been aggregated to the county level. Within each county, data for agencies reporting 6 to 11 months of information were weighted to produce 12-month equivalents. Data from agencies reporting only statewide figures were allocated to counties proportionate to their share of the state population. (2) The codebook is provided as a Portable Document Format (PDF) file. The PDF file format was developed by Adobe Systems Incorporated and can be accessed using PDF reader software, such as the Adobe Acrobat Reader.

EXTENT OF COLLECTION: 4 data files + machine-readable documentation (PDF) + OSIRIS dictionaries + SAS data definition statements + SPSS data definition statements

EXTENT OF PROCESSING: CDBK.ICPSR/ MDATA.ICPSR/ DDEF.ICPSR/ UNDOCCHK.ICPSR/ RECODE/ REFORM.DOC

DATA FORMAT: Logical Record Length with SAS and SPSS data definition statements

### DATA COLLECTION DESCRIPTION

The dataset UNIFORM CRIME REPORTING PROGRAM DATA [UNITED STATES]: COUNTY-LEVEL DETAILED ARREST AND OFFENSE DATA, 1989 reports counts of arrests and offenses known for UCR Index crimes: rape, robbery, assault, burglary, larceny, auto theft, and arson. County populations are also reported. The data were originally collected by the Federal Bureau of Investigation from reports submitted by agencies participating in the UCR. Detailed discussions of reporting procedures are found in the UNIFORM CRIME REPORTING HANDBOOK (Washington, DC: U.S. Government Printing Office, 1980), and the codebooks for the ICPSR's agency level UCR data collections (see ICPSR 9028).

For this data collection, the original FBI agency level data have been aggregated to the county level. Data from agencies reporting between six and eleven months of information are weighted to produce twelve month equivalents. For example, data from an agency reporting 11 months of figures are multiplied by 1.09 (12/11). Agencies reporting less than six months of data were excluded from the aggregation. Some jurisdictions, such as state parks and some state police, provide data only on a statewide basis. In these cases, data are allocated to counties proportionate to their share of the state population. In a few instances, statewide are not allocated because of reporting peculiarities or excessive missing data in the state; these agencies have been kept as separate records and are identified by the county code 999. Finally, cities designated by the Census Bureau as independent cities are reported separately, and have unique "county" codes (see Appendix A).

This collections consists of six files. There is one OSIRIS dictionary for the first three parts (Arrests: All Ages, Adults, Juveniles) and one OSIRIS dictionary for the fourth and last part (Crime). Each Arrest file has 53 variables for 3,132 cases, and the Crime file has 17 variables for 3,127 cases.
